

## QUALITY POLICY

We, at **TRANSMATIX**, are committed to consistently deliver our best team efforts to design & manufacture high quality Mechanical Transmission Products which can fulfill and even go beyond the expectations of our customers. We strongly believe that Customer Satisfaction is the key focus of our organization and we are determined to achieve it with our innovative design solutions, highest levels of quality & performance of our products, zero failures in our commitments & unmatched service quality.

We plan to achieve this by:

- Creating a nurturing environment to fuel innovative ideas and solutions which can add value for our clients or any other stakeholders
- Training and retaining our task force to ensure their competence towards zero defect
- Resolving to apply the principles of continual improvements at all levels & adapt with the changing times by continuously upgrading our systems and processes for improvements
- Maintaining an ideal Work Culture where each employee is naturally inspired to continually improve the efficiency and effectiveness of the organization, its processes and management systems
- Maintaining highest levels of Morals & Business Ethics

A handwritten signature in black ink, appearing to read "Mehora", with a horizontal line extending to the right.
